Description

Medical and Professional Clogs for HoReCa – High-Quality Footwear for Demanding Work Environments Medical and professional clogs by JULEX are an excellent choice for healthcare professionals and the HoReCa sector – including gastronomy, hospitality, and catering. Our footwear combines comfort, durability, and safety to meet the expectations of even the most demanding users. Models 150, 154, 156, 160, and 260 are professional clogs with a wooden-hybrid sole, available with closed toes, with or without perforation, full heel support, and non-slip tread. They are ideal for use in hospitals, clinics, and medical offices as well as kitchens, restaurants, and laboratories. Made from natural leather and wood, JULEX clogs ensure excellent ventilation and adapt perfectly to the foot. These shoes reduce leg fatigue during long hours of work and are ideal for both medical and food service professionals. Our products meet strict EN ISO 20347:2004 and EN ISO 20347:2012 standards, ensuring slip resistance, moisture protection, and resistance to disinfectants and cleaning agents. Overview of JULEX Medical and HoReCa Clogs: Model 150 – Classic full medical clogs without perforation – perfect for medical and pharmaceutical personnel. Model 154 – With perforation and adjustable instep strap – great for use in labs or outpatient clinics. Model 156 – Perforated with heel strap – stable and breathable shoes for nurses, doctors, and physiotherapists. Model 160 – Modern slip-on clog with a hybrid sole (plywood + PU) – enhanced comfort and cushioning for people constantly on their feet. Model 260 – Low shoe with hidden stitching and resistant to liquids and dirt – ideal for kitchen and foodservice environments. Why choose our medical and professional footwear? Medical shoes for hospitals and clinics Clogs for medical staff and nurses Work shoes for kitchens and gastronomy Certified safety footwear meeting EN ISO standards Durable, non-slip soles – safety on wet and slippery floors Natural materials – leather and wood for better comfort Made in Poland – crafted with the highest attention to detail JULEX – trusted medical and professional footwear, tested in hospitals, outpatient clinics, dental offices, and professional kitchens. Choose the model that best fits your needs – and invest in comfort and safety at work.

Based on many years of experience, we have developed, under the JULEX brand, footwear for professionals, persons working in the most severe conditions. We combined qualities such as resistance, protection and comfort, at the same time preserving compliance with the requirements of European standards for professional and protective footwear. Most models may be used in companies which have implemented the **HACCP system**. Our footwear is durable and resistant to external factors, which allowed usage in food industry, meat industry and gastronomy.
