Collection

Based on many years of experience, we have developed, under the JULEX brand, footwear for professionals, persons working in the most severe conditions. We combined qualities such as resistance, protection and comfort, at the same time preserving compliance with the requirements of European standards for professional and protective footwear. Most models may be used in companies which have implemented the **HACCP system**. Our footwear is durable and resistant to external factors, which allowed usage in food industry, meat industry and gastronomy.
