30 degrees

Description

STEEL-FLEX® Z334 STEEL TOE OVERSHOES' time-tested safety toe offers proven protection in any environment that presents the risk of accidental toe damage or where a steel toe cap is required. An excellent temporary alternative to steel toe safety shoes, they're perfect for visitors, casual or temporary workers, management, or clerical or sales people who need toe protection. Unlike standard safety shoes, Steel-Flex® Steel Toe Overshoes can be passed from person to person without concerns about hygiene. They are compact and easy to store, and every shoe fits either the right or left—another innovation that makes finding and snapping on a pair in your size, quick and easy. SUPERIOR PROTECTION » Manufactured from oil-, acid- and chemical-resistant TPR » Fully waterproof and crack resistant » The perfect combination of stretch, slip resistance and durability » Regularly and rigorously tested during production » CSA Z334 certified and CE approved for use in Europe COMFORT AND CONVENIENCE » The best fitting safety overshoe on the market (based on industry feedback) » Ambidextrous (no lefts or rights), making it very easy to pull a pair out of a mixed box » Available in eight graduated, colour-coded sizes » Available in Steel-Flex High-Vis Yellow*, industry standard Black or Pink » Designed with a flatter anti-slip sole to fit comfortably over soft-toed shoes, running shoes or low-heeled, blunt-toed dress shoes

Collection

Based on many years of experience, we have developed, under the JULEX brand, footwear for professionals, persons working in the most severe conditions. We combined qualities such as resistance, protection and comfort, at the same time preserving compliance with the requirements of European standards for professional and protective footwear. Most models may be used in companies which have implemented the **HACCP system**. Our footwear is durable and resistant to external factors, which allowed usage in food industry, meat industry and gastronomy.
